

## Showcase Your Organization & Support AIM with a Year in Review Sponsorship

AIM's annual industry publication, **Year in Review**, will highlight the multitude of AIM accomplishments during the year as a member-focused, web-based document that can be accessed by members and nonmembers alike while promoting the best of AIM and its impact on the global AIDC community.

In addition, the Year in Review (YIR) will highlight leading organizations that support AIM and its work through their underwriting support.

Corporate sponsors for the YIR will have four options, each with increasing visibility, information and access to the sponsor's organization.

*\* Sponsor opportunities open to AIM member & industry partner companies.*

*\* AIM reserves the right to limit options based on publication space available.*

This is a significant opportunity to spotlight your organization as an industry leader, but most importantly your financial support is an investment in AIM and its efforts to remain positioned as a valuable and viable resource within automatic identification and the world marketplace for nearly five decades.
