# AIM Japan

## Covid 19 in Tokyo/Japan

# AIM Korea

- Korea's AIDC market is considered to be relatively less affected by covid-19 compared to other industries.
- In some cases, the demand for non-face-to-face work and daily life and automated logistics systems is rather booming.
- However, AIDC hardware manufacturers are not meeting the proper delivery due to semiconductor production setbacks and international logistics restrictions.
  
- AIM Korea is in a situation where there are not many activities due to non-face-to-face quarantine rules.
- The chairperson of AIM Korea was transferred to the new president after two years of tenure.
- The Secretary General will continue to work. Business continued as before without any special issues.

# AIM India

1. After series of COVID-19 lock downs, life is limping back to normalcy. Last Lockdown opened on 24<sup>th</sup> Jan '22. Businesses have been severely affected. But going forward the businesses are picking up.
2. Currently the AIDC market is suffering from acute shortage of Hardware with long delivery time.
3. First meeting of the proposed members of AIM INDIA was held on 18<sup>th</sup> Dec 2021.
  - a. Receipt of approval from AIM Global was announced
  - b. Suggestions on the making of AIM INDIA were discussed and making Section 8 Company was agreed by general consensus.
4. Name AIM INDIA has been approved by the Ministry of Corporate Affairs, Government of India
5. Application under finalisation for Ministry of Corporate Affairs, Government of India for getting the Company registered and getting a licence.
6. Once the Company has been registered, we would be able to open a bank account and collect subscription money. After that AIM INDIA will become operational in full earnest.

*Thank you!*

Welcome to join us!
